

SOLUTION BRIEF

Supplier Risk Management

Reduce the impact of potential disruption with **Supplier Risk Management**

Anticipate changes that impact the resilience of your supply chain with reliable data, configurable event monitoring, and intelligent alerts to understand and prioritize threats and proactively avoid disruption.

The Challenge

Procurement and supply chain professionals are often under-resourced yet responsible for anticipating risk on a global scale for hundreds or thousands of strategic supply chain partners.

The task of proactively managing supply chain risks becomes increasingly difficult due to gaps in data, siloed tools, and legacy solutions that overwhelm users with too many alerts.

Craft has everything you need for supplier risk management in a centralized platform:

- Centralized Risk Hub
- Alerts & Industry Benchmarks
- Holistic Company Profiles & Comparisons
- Advanced Search and Filters
- Customizable Supplier Portfolios
- User-friendly Collaboration
- Case Management

RISK CATEGORIES

Assess supplier risks across a wide range of categories in a single platform

Cybersecurity

Operational

Regulatory & Compliance

ESG

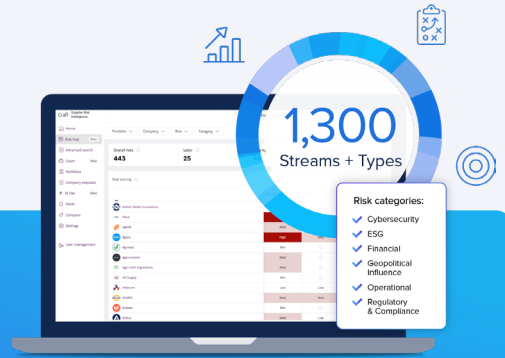

Financial

Geopolitical Influence

Craft Supplier Risk Management is powered by scalable, enterprise-grade modules

CRAFT SENSE

Get a complete view of your suppliers with reliable intelligence across all risk domains for thorough and repeatable due diligence.

CRAFT PROTECT

CRAFT IMPACT

Craft SRM can be extended to Supply Chain Risk Management by adding **Craft Impact** for multi-tier mapping and optimizing supply chain strategies.

Why Craft?

Advanced Data Fabric

1,300+ data streams that easily integrate with data on your locations, products, projects, and more.

Highly Configurable Alerts

Get the proactive alerts you need to manage all your supply chain risks.

Dynamic Collaboration

The industry's most user-friendly SRM platform that accelerates information sharing and action.

A comprehensive platform that can scale with the needs of your business offering three solutions

SUPPLIER INTELLIGENCE

Conduct checks in hours instead of weeks with comprehensive supplier intelligence you can trust.

SUPPLIER RISK MANAGEMENT

Continuously monitor potential threats and disruption to your supply chain with real-time alerts and deep insights into your suppliers.

SUPPLY CHAIN RISK MANAGEMENT

Expand your visibility beyond tier one suppliers to uncover potential risks and dependencies, and take action with integrated collaboration tools.

Gain a comprehensive understanding of your suppliers with robust company profiles and discovery tools

COMPANY PROFILES

Quickly access structured supplier intelligence that's easy to understand

SUPPLIER COMPARISON

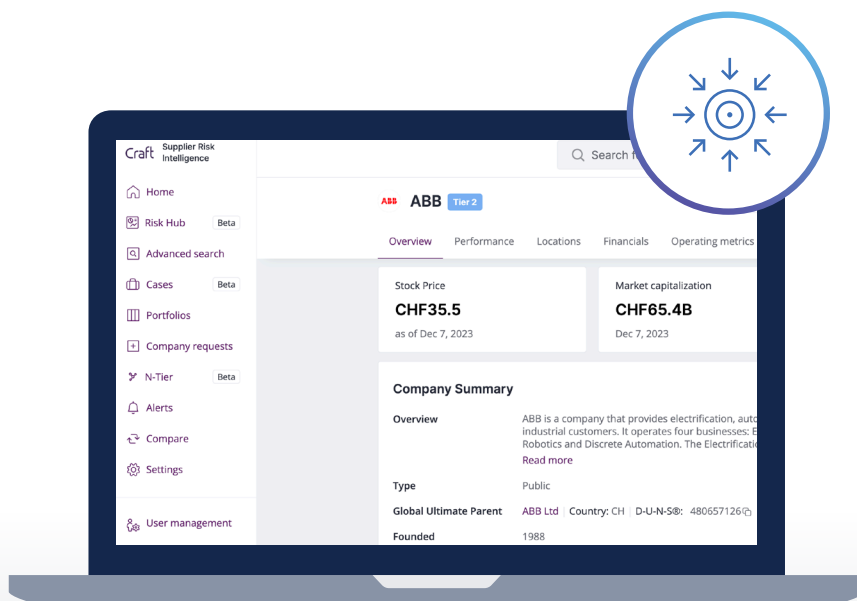

Instantly compare suppliers side-by-side on critical metrics

ADVANCED SEARCH

Discover new suppliers whose qualifications meet your requirements

PORTFOLIO CHECK

Evaluate new potential suppliers against industry benchmarks and other KPIs

Continuously monitor suppliers and identify the risks most relevant to your business so you can prevent disruption

ALERTS AND INDUSTRY BENCHMARKS

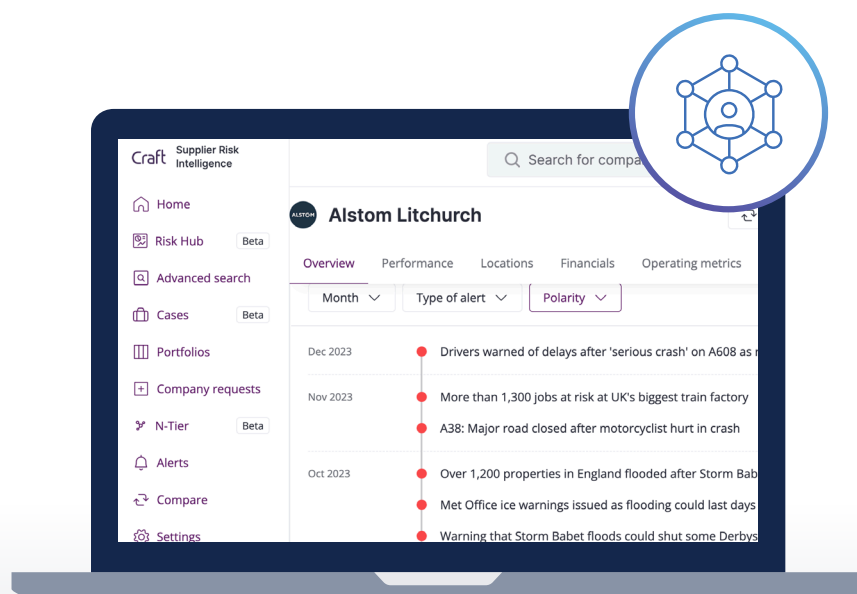

Proactively monitor suppliers across global news sources and against industry benchmarking

ADVANCED ALERTS

Customize your intelligence with advanced alerting capabilities spanning keywords, commodities, and regions

CRAFT RISK HUB

Centralize visibility into risk across your entire supplier network

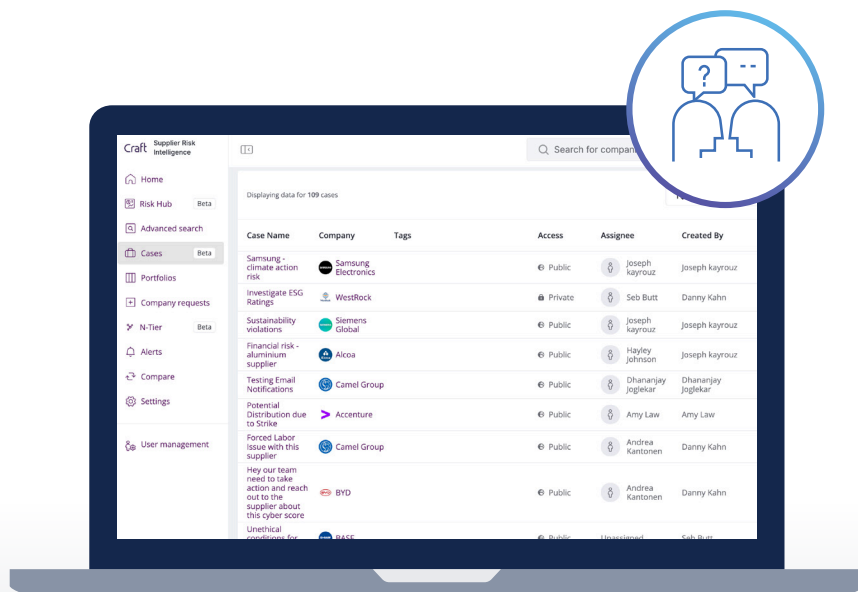

Quickly act on insights with integrated collaboration tools

CASE MANAGEMENT

Make smarter, faster decisions to ensure compliance with historical case tracking, reporting, and centralized documentation.

COLLABORATION WORKSPACE

Centralize and coordinate response efforts and action plans across your entire organization.
